

## Hebrews 11

1. What definition of faith is given in this chapter? (Verse 1) Is this how you usually think of faith? Is this the kind of faith that you have?
2. When the book of Hebrews was written, verse 3 says that it is by faith that we understand that the universe was formed at God's command, so that what is seen was not made out of what was visible. Now, however, in our time, how has Albert Einstein shown that it is a scientific fact?
3. A) What are we told is so important about our faith in verses 6 and 7? B) What are we told to put our faith in in verse 6? Have you?
4. This chapter of Hebrews recounts for us how certain people of God lived by faith and what they accomplished through it. What stands out to you from this and why? (v. 4-12, 17-38)

5. A) What were these people of faith promised by God and looking forward to that they did not receive? (v. 13-16, 39) B) How did this effect their attitude of who they were? (v. 13) C) When will they receive it? (v. 40) D) Where do you need to put your faith in God and trust Him even though you have not yet received what He has promised you? E) Do you believe like they did? F) How has this effected your attitude of who you are?
