

Hebrews 2

1. Where did God's great salvation come from? What confirms that it was true? What is one way that we can find out about it? What will happen if we ignore it? Why? What will happen if we pay careful attention to it? Have you received this great salvation for yourself?
2. Everything exists not only because of God, but for what other reasons, although they are not yet true today? How does this make you feel?
3. What 3 reasons are given why Jesus was made a little lower than the angels, and like us with a physical body? How have you applied this to your life?
4. What verses tell us that we are part of God's family? What has God and Jesus done for us as part of their family? How is this true in your life?
5. How did God make Jesus perfect? Do you think He does something similar with us? In what one way did this happen to Jesus that is mentioned in this chapter? How does this help us?
